

Organizational Data Analysis

1. Clicking the **Organizational Data Analysis** link from the Leadership System homepage to complete these preferences relative to the context of your specific organization.

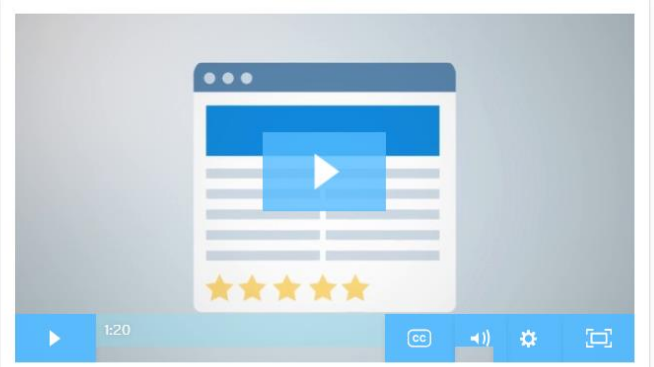

Getting Started With the SAS Leadership System

Welcome! The SAS Leadership System is designed for your professional growth. This web-based system provides you with a personalized set of resources and tools to support individual leadership and organizational development.

Setting your personal and organizational preferences will customize the system to provide you with professional growth opportunities, high quality vetted resources, and the ability to connect with educational leaders across the Commonwealth.

To get started,

- Complete the *My Leadership Focus* components relative to you as a leader.
- Complete the **Organizational Data Analysis** relative to the context of your organization.

2. Alternatively, click on **MySAS** in the top right corner of the page and select **Organizational Data Analysis**.

The screenshot shows the top navigation bar of the SAS Leadership System. On the left, there is the SAS Leadership System logo and a dropdown menu. On the right, there are links for Professional Development, Resources, Connect With Others, Partners, and Susie Teacher MySAS. Below the navigation bar, there are four main navigation buttons: My Leadership Focus, Organizational Data Analysis (highlighted with a red box), ePortfolio, and PD Center. A Logout button is visible on the far right.
